# Wrangle and Analyzing

Introduction

Have you heard about one of the most famous memes of 2016 *"they're good dogs Brent"* and the twitter account WeRateDogs*?* Probably yes, but if not. Here I can

tell you a bit about it and better than that I can show you some fun analysis of WeRateDogs tweets data.

 First, WeRateDogs could be a Twitter account that rates people's mutts with a funny comment almost the canine. These appraisals nearly continuously have a denominator of 10. The numerators are nearly continuously more prominent than 10 (11/10, 12/10, 13/10, etc.). In hypothesis the rates ought to be 1 to 10. Be that as it may, WeRateDogs oppose this idea, they concede nearly all mutts merit a 10 and in some cases more than that. WeRateDogs has over 6 million supporters and has gotten universal media scope. One of those scope were around the cite "they're great pooches Brent", this was a trade in which WeRateDogs closed down an individual having an issue with its rating framework in funny ways. So what does this rating do? Which dog type (breed) is the most common pooch within the tweet dataset? What canine sort has the most noteworthy normal rating? These questions and more are replied within the taking after insights:

Most common dog type

WeRateDogs has over 6000+ tweets. I was able to analyze around 1500+ tweets. The most rated dog was golden retriever with more than 140 ratings.

Lowest average rating among dog types

Nearly all pooches merit appraisals over 10. This can be a striking exemption (for the inquisitive ones). This Japanese spaniel has the least normal rating. So what does this rating do? Which dog type (breed) is most common pooch within the tweet dataset? What pooch sort has the most elevated normal rating? These questions and more are replied within the taking after insights:

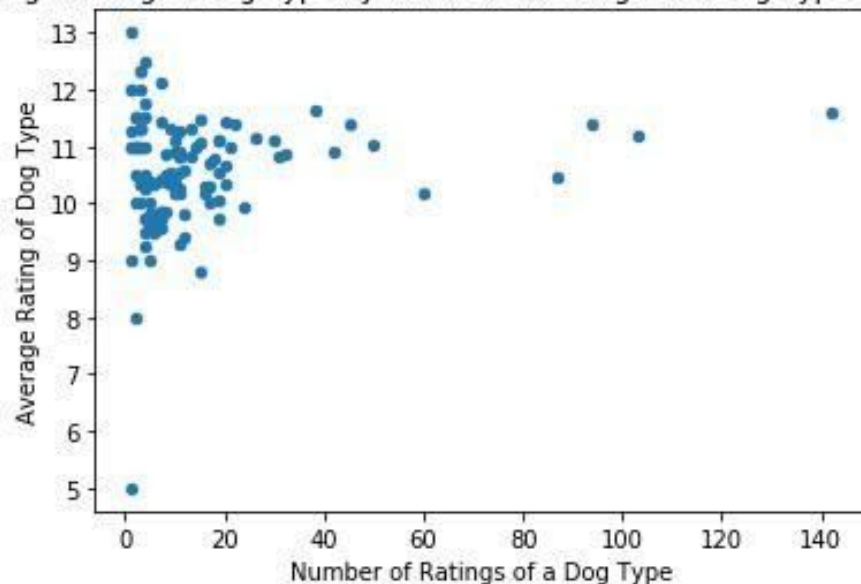

This is an example of the most rated dog type (Golden retriever). The average rating was also high (11.59). No wonder why! Cute!

Golden retriever stands out!

The blue dab on the exceptionally right speaks to the roughly 140 appraisals of brilliant retriever. On normal these appraisals are tall 11.59. This truly appears that the brilliant retriever is exceptionally popular.

Retweet counts

Incredibly numerous tweets have been retweeted more than 1000 times a few more than indeed 50000 times. There's not a clear relationship between the appraisals and the retweets.
